

DISCUSSION OF INTERMEDIATE ASSIGNMENT 31.10.2007

DEVELOPMENT OF ASSESSMENT TOOLS

Phase 1. "Mixed" group working

Each one in the group tells

- what kind of assessment she/he developed
- why it was needed to develop the tool in question
- how the working process was implemented (different stages)
- what kind of questions and problems occurred
- what was easy

Other group members

- pose questions
- give feedback, new perspectives, development suggestions and ideas of use the tool

Phase 2. "Home" group working

Group

- discusses feedback, development suggestions, critical incidents gained in the previous phase
- agrees on further development of the tool and what should especially be observed, studied and experimented regarding to the tool
- produces SWOT-analysis
